A08069 Memo:

NEW YORK STATE ASSEMBLY
 MEMORANDUM IN SUPPORT OF LEGISLATION
 submitted in accordance with Assembly Rule III, Sec 1(f)

BILL NUMBER: A8069C**SPONSOR:** Rules**TITLE OF BILL:** An act authorizing the city of New York to discontinue the use of certain lands as park lands**PURPOSE OR GENERAL IDEA OF BILL:**

The purpose of this bill is to provide for the alienation of parkland in Van Cortlandt Park.

SUMMARY OF SPECIFIC PROVISIONS:

Section one of this bill provides for the alienation of parkland in Van Cortlandt Park located in the borough of the Bronx, for the purpose of constructing and operating a water treatment facility capable of treat-

ing up to 290 million gallons of water per day (MGD) from the Croton watershed. Section two contains conditions on the alienation authorization, including the following requirements: New York City must set-aside the fair market value of lands being alienated for acquisition of new parklands or capital improvements to existing parklands; New York City must enter into a memorandum of understanding (MOU) to identify park improvement and/or acquisition projects and the City Council must ratify such MOU; and, New York City must consider dedicating Jerome Park Reservoir as parkland. Section three contains the metes and bounds of the lands proposed for permanent alienation. Section four contains the metes and bounds of the lands proposed for temporary alienation, to be restored as parkland after construction of the facility is completed. Section five is the effective date.

JUSTIFICATION:

Pursuant to a Consent Decree entered into by the United States, the New York State Department of Health (NYSDOH) and the City of New York, the City is under an obligation to filter water provided from the Croton watershed, the smallest of the three surface water systems that together supply drinking water to the City and to approximately one million residents outside of the City. The Croton watershed comprises 375 square miles, located primarily in Westchester and Putnam counties, with smaller portions in Dutchess County and Fairfield County, Connecticut. Surface water in the watershed is impounded in a series of twelve reservoirs and three controlled lakes on the Croton River and its tributaries and branches. The impounded water is transmitted to the City via the New Croton Aqueduct. The Croton watershed provides approximately 10 percent of the City's average daily demand during periods of normal rainfall, and up to 30 percent of the City's average daily demand when rainfall is below normal.

PRIOR LEGISLATIVE HISTORY:This is a new bill.**FISCAL IMPLICATIONS FOR STATE AND LOCAL GOVERNMENTS:** None to the State.**EFFECTIVE DATE:**Immediately.

AN ACT authorizing the city of New York to discontinue the use of certain lands as park lands

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 **Section 1.** Notwithstanding any provision of law to the contrary, the
2 city of New York, is hereby authorized to discontinue the use as park
3 lands, the lands described in section three of this act for the purpose
4 of construction, installation, operation and maintenance of a water
5 filtration facility and improvements and appurtenances related to the
6 construction, operation and maintenance of such filtration facility,
7 including, without limitation, loading and unloading areas, parking
8 areas, roads, gatehouses, pumps, pumping stations, aqueducts, tunnels,
9 pipes, valves, and pressure regulating devices, and to discontinue the
10 use as park lands, the lands more particularly described in section four
11 of this act during the construction of such facility and improvements
12 and appurtenances; provided, however, the authorization contained in
13 this section shall not be interpreted to diminish the city of New York's
14 legal obligation to comply with any federal, state or local environ-
15 mental or land use law, rule or regulation. Upon the completion of the
16 water filtration facility-related construction, the city of New York
17 shall restore the surface of the lands more particularly described in
18 section four of this act and the lands shall continue to be used for
19 park purposes.

EXPLANATION--Matter in *italics* (underscored) is new; matter in brackets [-] is old law to be omitted.

2

1 § 2. The authorization contained in section one of this act shall be
 2 subject to the requirement that the city of New York acquire additional
 3 park lands of equal or greater fair market value and/or perform capital
 4 improvements to existing park and recreational facilities which are
 5 equal to or greater than the fair market value of those lands discontin-
 6 ued pursuant to this act. In addition, the authorization contained in
 7 section one of this act shall take effect only upon the condition that
 8 the city of New York shall have entered into a memorandum of understand-

9 ing (MOU) with the temporary president of the senate and the speaker of
 10 the assembly to identify (1) the sum of money that the city of New York
 11 shall dedicate for the purpose of implementing eligible projects to
 12 acquire and/or improve park lands in the borough of the Bronx and (2) a
 13 list of such eligible projects. Further, the MOU with its final terms
 14 must be ratified by vote of the city council of the city of New York.
 15 Finally, the authorization contained in section one of this act shall be
 16 subject to the requirement that the city of New York shall complete a
 17 supplemental environmental impact statement on the construction, instal-
 18 lation, operation and maintenance of a water filtration facility and
 19 improvements and appurtenances thereto at the lands described in
 20 sections three and four of this act and that the city of New York shall

21 give due consideration to the dedication of Jerome Park Reservoir as
 22 parkland.

23 § 3. The park lands authorized to be discontinued by section one of
 24 this act are located in the Borough of the Bronx, City of New York, and
 25 are more particularly described as follows:
